

EVERYTHING YOU NEED FROM THE DECK UP

RIVER TIGHTEN® (RT-40)

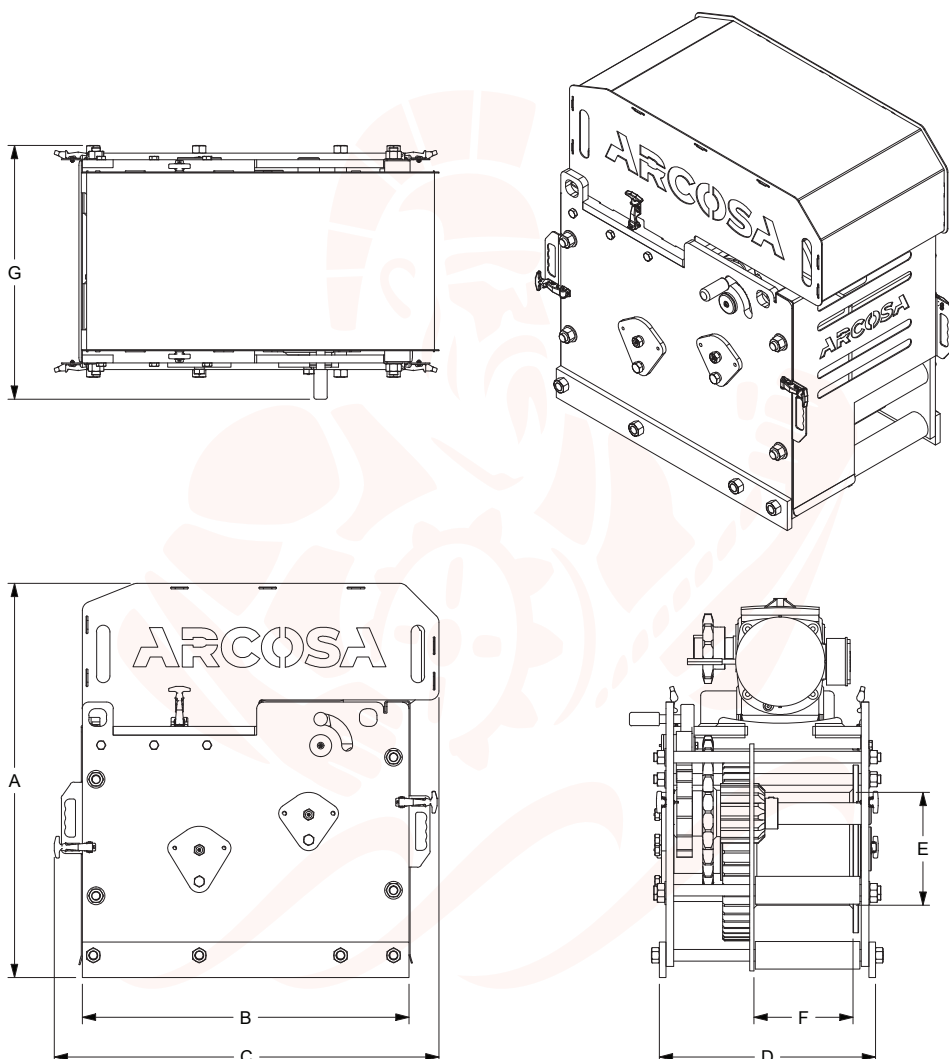

Features & Specifications

- Next-generation deck winch technology to safely secure your tow
- Line speed 30% faster than Wintech DW40 for rapid facing and fleeting operations.
- Designed from the deck up for reliability and ease of maintenance
 - Reduced number of shafts and bearings compared to legacy designs
 - IP66 watertight sealed brake, no adjustments necessary
 - All shafts are removable from either side of the winch with hand tools
 - No cable wedge, standard U-bolt rope connection to drum
- Stainless steel dog handle stays stationary while dog is engaged
- Nylatron exit rollers protect costly synthetic rope from damage
- All rotating components inside winch side frames
- Powder coated marine grade aluminum guards
 - Custom logos and colors available at no charge
 - Motor protected under oversized top guard
